Churn Rate by TechSupport

Churn Rate by Tenure Group.

Churn Rate by DeviceProtection

Churn Rate by Internet Service.

Month-to-month customers churn at 42.71%, compared with 2.83% for two-year customers. Customers who churned had a median tenure of 10 months, versus 38 months for retained customers. These are patterns in the dataset, not proof of cause. A retention team could test earlier outreach for new, month-to-month customers.
